

## IA Check

IA Check's interface to **CD Archive and Retrieval** (licensed separately, PE only) allows easy creation of CDs by dragging and dropping files. CD archiving allows compact storage and quick retrieval of all data captured (TIFF or JPEG and an index database with search parameters). One 640 MB CD-ROM can hold approximately 25,000 Check images (front and back TIFF format). Data stored on CD-ROM is non-erasable and non-alterable; Check images from CDs can be printed or faxed, 1, 3 or 10-up on a single page.

### Reports:

- ✓ Batch Summary Reports
- ✓ Batch Item Listing
- ✓ Archive/Retrieve and Print, Fax or Email
- ✓ Exception Item Reports (PE Edition only)
- ✓ Document Type Profiles (PE Edition only)
- ✓ CD Creation History Log (PE Edition only)
- ✓ Image Check Print (up to 14 per page)
- ✓ IntellAccount (import/compare account field) (PE Edition only)

### Other features of IA Check:

- ✓ **Document Type Wizard:** Ability to add, change or delete document types and to set parameters including required edit/verify fields, batch balance requirements, MICR Encode & Backside Inkjet Endorse option.
- ✓ **Profiles:** Default profiles for account notification limit and statement print account definitions.
- ✓ **Item Retrieval:** Simple & Complex Search Fields with Amount Range Search capability.
- ✓ **Institution Information:** Create profile with institution information and logo, which can be printed on statements/reports.
- ✓ **Flexible security options:** Add or delete users, set passwords, add or change authorization levels and unlock accounts.
- ✓ **MICR/Image or ACH File Export:** Extract files for import to other financial systems or applications.
- ✓ **WEB View Portal** (licensed separately): Maintains Client Directory and queues images for presentation to Intranet/Internet Server/Host or ASP/ISP. (Requires IA Check PE Edition)

### Technical Specifications:

- Uses standard Microsoft® Windows® conventions and follows Microsoft's Graphical User Interface (GUI) Standards.
- Check scanners process both ABA standard and other qualified Checks, including carrier envelopes, with the following size restrictions: minimum capacity: Height: 2.7" (69mm) Length: 4.13" (105mm); maximum capacity: Height: 4.13" (105mm) Length: 9.0" (230mm)

### Recommended Configuration Requirements:

Qualified Digital Check TS200/300/350/400es or BUIK 1500 Duplex Check Scanner with MICR Codeline Read.  
Other Qualified Scanners include; MagTek (LE Edition Only) AIM 2200/2400, SEAC RDS3000/6000 & Panini 80/120.  
USB and/or Adaptec 2940 SCSI card and cable may be required based on scanner requirements.  
Desktop computer containing Intel Pentium® Processor with 132 MB memory, minimum 800x600 (small font) video resolution.  
Microsoft® Windows® 95/98se, ME, Win2000, Windows® NT and XP.  
CD Recorder with Direct CD required for IA CD Archive and Retrieval Module.

**IA CD Archive & Retrieval Module and IA Page Module included with Professional Edition. Page Software supports all TWAIN Scanners. IA Encode, IA ImageStatement Merge/Print and IA WebView Licensed Separately.**
